Volume 6, Number 4 August 1976

CAL-NEVA TOKEN LEDGER

Published by
CALIFORNIA-NEVADA TOKEN SOCIETY

The CAL-NEVA TOKEN LEDGER is the official publication of the California-Nevada Token Society, an informal, educational, non-profit organization devoted to stimulating and maintaining interest in the tokens, medals and other exonumia of the western states.

CANTS was founded in 1971 as the California Token Society. In the same year, the name was changed to the California-Nevada Society to reflect the interests of its members. In 1975, the membership voted to expand the scope of interests to include all the western states, and to consider a change in name in the future depending on member interests.

All members of CANTS receive the CAL-NEVA TOKEN LEDGER as part of their yearly membership dues of $4.00, paid annually in advance. Back issues, if available, can be purchased @75¢ per issue from the editor.

Reproduction or other use of the material in this publication may be given upon written request.

= PUBLICATION DEADLINES =

Issue	Copy Deadline	Issue Date (Mailing)
February	15 February	28 February
April	15 April	30 April
June	15 June	30 June
August	15 August	31 August
October	15 October	31 October
December	15 December	31 December

= ADVERTISING RATES AND SIZES =

Members are entitled to one free six-line classified advertisement in each issue. A new ad must be submitted for each issue. Paid classified ads are $1 per six lines.

Display advertising rates are $10 full page (4-1/2"x7-1/4" area), $5.50 half-page (4-1/2"x3-5/8" or 2-1/2"x7-1/4" area), $3.00 one-fourth page (2-1/2"x3-5/8" area), all for camera-ready copy. If copy must be prepared, the rates are 50% higher. Original copy may be reduced to 80% of original size for publication; for this reduction, the original copy size shall be 5-5/8"x9" maximum.

San Francisco, CA 94140

Assistant Ledger Editor
Duane H. Feisel
P.O. Box 1302
Los Altos, CA 94022

Address changes should be sent to the Secretary-Treasurer.

The California-Nevada Token Society holds two general membership meetings each year, usually in the Spring at the Token and Medal Jamborees in San Jose, Cal., and in the Fall at the annual coin show of the Delta Coin Club, Stockton, Cal. Additionally, local membership meetings are arranged often by various members; notice of these meetings is publicized in the LEDGER, and all interested persons are invited at all meetings.

Cal-Neva Token Ledger

SACRAMENTO MEETING: - A regional meeting will be held on Sunday, September 12, at the home of Ron and Anita Lerch, located at 2901 Land Park Dr., Sacramento, Cal. As usual, the meeting will get underway starting about noon, and will run up to 5 PM. It has been a while since we have met at Ron's, and he should have interesting material to show us. There will be a lot of tokens for sale and trade including some new material from the "Great Hoard" which has enriched so many of our collections. Land Park is a major street, and you should have no problems in finding your way, but if you do, call Ron at 916-447-0753.

OAKLAND MEETING: - Token collectors of all persuasions are invited to attend a meeting of the Bay Area Token Society (BATS) on Sunday, September 19. While most of those involved with BATS collect transportation tokens as a primary interest, most of the BATS people are also members of CANTS and collect other types of tokens. The meeting is at the home of Hal and Louise Ford, 6641 Saroni Dr., Oakland, Cal.; the usual hours of noon to 5 PM will prevail. Reaching the Ford residence may require a look at the map, but as starters it is located in the general vicinity of Warren Freeway and Park Blvd. For more help, the Ford's telephone number is 415-339-0254.

STOCKTON MEETING: - The fall semi-annual meeting of CANTS will again be held in conjunction with the coin show of the Delta Coin Club in Stockton, Cal. For the past few years, this show has been held on the second weekend in November. Information has not yet been received as to the exact dates of the show for this year, but if the usual dates apply, then we should have our meeting on Saturday, November 13. This is indefinite, however, and exact information will be given in the next issue. However, that will be just before the meeting.

JULY MEETING: - The annual July meeting in Los Altos was attended by a large group of collectors and family members. The combined CANTS-BATS meeting was held on Sunday, July 11, at the Feisel's. Other CANTS members there included Ron Lerch, John Nicolosi, Dale Noll, John Reynolds, Jerry Schimmel, Steve Album, Chuck Nichols, Clark Cooney, Henry Kile and Hal Dunn; in addition, a number of BATS members were there. Judging from the way the food and drink disappeared, and the lateness of breaking up of the gathering, I have the impression that people enjoyed the meeting. - DHF

19 AUGUST 1976 - Things are a bit hectic around here, as I am trying to get ready to depart for New York tomorrow afternoon. Lots of things must still be arranged, and many details remain for my attention. The ANA ought to be an interesting show this year, not especially for tokens, though a few goodies will unlikely surface. After the ANA, I will spend two weeks up in Iola, Wisconsin, working on the Standard Catalog of World Coins, the 4th edition of which is due out sometime next year.

DEARTH OF MATERIAL - If any of you have felt the urge to complain about the lack of interesting token articles in the past couple of issues of the Ledger, you would find my ears very sympathetic. But in order to remedy that shortcoming, we need contributions from the membership. This is really important, for the Ledger is the lifeblood of our organization, and without a constant input of longer articles and shorter notices, it will shrink into oblivion. If that happens, the organization will surely come upon harder times. If every member would submit a long or short article once every two years, we would have enough material to fill each issue and more, and I really do not feel that that is asking too much of you. Although articles pertaining to California and Nevada will be given first priority, with the expansion of our range, articles on any Western state will be gladly accepted. Right now, I'd print an article on the tokens of Lower Slobovia, for our files are absolutely empty. Short articles can be just as important as in-depth ones, and they are easier to write. Rubbings can easily be worked in as illustrations, and if enough demand arises, so can photos. But please get something in, and get it in soon; we need some material for the October issue, which I should be getting together just after the 15th of that month.

Articles may be typed or handwritten, so long as I can read the words. Don't worry about spelling or grammatical errors, as I can readily correct those when I prepare final copy. Just scribble it down, and post it off to me ASAP.

WESTERN TOKEN MANUFACTURERS - We know there were local token makers in Portland, Seattle, Salt Lake City, Denver, and elsewhere in the West. How about some articles on the history and identification of these makers?

THE END OF THE JAMBOREE - At the July meeting of CANTS and BATS at his home, Duane Feisel announced that the Jamboree will no longer be held. Increased costs and lack of dealer and visitor support are the reasons, as well as the unsuitability of San Jose as a location. One way, perhaps, to resurrect the idea is to promote the long-anticipated prospect of a TAMS sponsored exonumia show once a year. A few letters to some of the TAMS people, which include a number of our members, might help. Another, perhaps more likely path of action is to support the efforts of member Paul Koppenhaver to get something going in conjunction with the massive Long Beach Coin & Stamp Exposition.

INTERIM REPORT ON THE CANTS BICENTENNIAL PROJECT - Although we failed to receive ARBCC Sponsorship for our cataloguing efforts (that means money), we do have their official endorsement, which enables up to use the official California logo, and gives us some otherwise unavailable status.

The last of the questionnaires to local Bicentennial commissions are being mailed this week by member Dan Jacobson, who has offered to perform the miserable task of folding, stuffing, stamping, and mailing. Response to the first couple of batches has been spotty, though it is probable that most of those cities and counties which have struck medals will have responded.

So far, I have on file about 40 "official" medals and about 25 more privately issued pieces, as well as a number of tokens, including over 125 struck in the Patrick Mint series. I am predicting we shall log about 100 different medals in all, perhaps 125, which is not very far from what I expected from the beginning. In the next Ledger, I will publish a brief list of those authorities, public and private, which have produced medals that bear a Bicentennial theme. If any of you know of any others, I would appreciate learning about them. In the meanwhile, if anyone hears of a bicentennial medal, let me know; even if it duplicates what I already know, I will be happy to have the information. One way to learn about them is to telephone all the local Chambers of Commerce (listed in the white pages) that are local calls, and just ask them if their city is producing a medal. They will usually know, and can tell you where further information can be had.

MISSISSIPPI TOKEN LISTINGS: - CANTS member George P. Chatham (#160) writes to inform us that he is working on a listing of MS tokens, and would appreciate hearing from members having tokens from this state. George collects MS trade tokens, MS scrip and broken bank notes, and pontiled MS bottles. - DHF

SECRETARY-TREASURER'S REPORT: - Because of the press of other matters, Hal Dunn has not been able to prepare the usual complete and informative report to which we have become accustomed. For the next issue, Hal will have a combined report for us. He has told me over the telephone that we gained two new members. I know one of these is Chuck Nichols of Livermore, because I signed him up at the July meeting in Los Altos. It is appropriate, perhaps, that Chuck becomes member #200 during the bicentennial year, and so close to July 4th! - DHF

COVER ART: - Even those of you with sharp eyes must have had trouble with the rubbing of the Highgrove token appearing on the cover of last issue. Needless to say, it did not reproduce well--it was rubbed in red pencil, while the other rubbings were made with a blue pencil. Anyhow, that rubbing is repeated this time along with some other interesting items. - DHF

SLOT MACHINES ARE LEGAL AGAIN IN CALIFORNIA!

Some Modern Slot Tokens, by Stephen Album

Of course, there is a catch. The new-fangled cleaned-up slot machines are designed to be played by both adults and children alike, and they pay off every time. What they are, in effect, is a coin-operated vending machine that dispenses a souvenir token, usually at a cost of 25¢. They are actually converted old-time slot machines, into which you thrust a quarter, pull the one-arm lever, watch the spinning wheels come to rest, and remove your souvenir token from the cup at the bottom. These are currently being marketed by an outfit in Minnesota, which also supplies the tokens. The present tokens are usually made of white metal (non-magnetic), occasionally of a magnesium alloy. Most have reeded edge. They have various reverses, most promising GOOD LUCK or indicating that they are SOUVENIRS; some have a Bicentennial theme reverse. The obverse contains either some advertising, or if the issuing outfit is a chamber of commerce or the like, some sort of plug for the area. They are designed as cheap tourist souvenirs.

Some of the machines have been in use for several years, and the tokens have been reordered, in some cases, many times over. The result is that varieties abound for some of the issues (I have already found five different Santa Cruz Beach Boardwalk tokens), some made in white-metal, some in magnesium alloy, some in brass, and some in aluminum, plain or anodyzed.

Here is a list of the ones I have so far observed from California. I have made no attempt to indicate how many different kinds there are, or how many metals, or what they are inscribed with. This is just a rough checklist. I collect these myself, and am always interested in adding new varieties as well as new pieces.

Santa Cruz Beach Boardwalk	Santa Cruz CA
Golden Eagle Bazaar	Yountville CA
Palace Arcade	Big Bear Lake CA
The Bonanza Inn	Yuba City CA
The Paul Bunyan	Porterville CA
Knott's Berry Farm	Buena Park CA
Marshal Scotty's Playland & Park	El Cajon CA
Ripley's Believe-It-Or-Not Museum	San Francisco CA
The Museum of Witchcraft	San Francisco CA
Sea Captain's Chest	San Francisco CA
Frontier Village	San Jose CA
Magic Mountain	Valencia CA
Calico Ghost Town	Yermo CA
Redondo Beach	Redondo Beach CA

Some representative rubbings are shown on the opposite page.

There are also many dozens of varieties I have seen from every part of the US, mostly from tourist areas.

I am sure there are many others I have not yet found. The maker of the tokens is not known, but from the work, I suspect that they are made abroad. The quality is general ly good, and I doubt they could be supplied domestically at so cheap a price that they can be retailed at a quarter a shot.

(Note: Sam's Town, Cameron Park, Cal., also has one of these pieces dispensed from a slot machine. DHF)

Reverse as Yermo

Original medal struck by Anillo Industries, Orange CA.

1970-46*. WILMINGTON - United California Bank Wilmington Office opening. (23 March) (38 mm)
BZ - given away on opening day
Anillo Industries, Orange CA

* * * * * * *

= MODERN INDIAN TRADER TOKENS =

[illegible] has supplied the following information of interest to us:

Torreon Trading Post, who are Navajo indian traders, are presently using two tokens in their business. One in brass states: TORREON TRADING POST / CUBA, N. MEX. / INDIAN TRADERS / TANNER // Good For $200 In Trade With A $1000 Purchase. The second is a Patrick Mint piece with the Indian Head Bicentennial reverse: TORREAON TRADING POST / CUBA, N.M. 87013 / GOOD FOR $200 IN TRADE.

A third token exists in large yellow plastic: TORREON SUPER MART / 50¢ // ("happy face"). This token had limited use during the first part of 1975, but is no longer being issued.

Mr. Tanner has agreed to sell a "limited number" of each to interested collectors at face value plus a stamped self-addressed envelope. Therefore, one of each of the three would cost $4.50, plus the SASE. Write to Mr. J. Tanner, Torreon Trading Post, Cuba, NM 87013.

Thanks for sharing this information with us Dave!

Duane H. Feisel P.O. Box 1302 Los Altos, CA 94022

EACH MEMBER IS ENTITLED TO ONE FREE SIX-LINE AD EACH ISSUE, BUT A DIFFERENT AD MUST BE SUBMITTED EACH TIME. YOUR AD SHOULD BE ON A SEPARATE PIECE OF PAPER, AND NOT PART OF A LETTER. SUBMIT YOUR ADS TO THE EDITOR AS FAR IN ADVANCE OF PUBLICATION DEADLINE AS POSSIBLE.

CANTS MEMBERSHIP MEDAL/TOKEN: - Each year for the past few years members have received a medal/token stamped with the member's number. When the program was started, the costs for these pieces were quite reasonable. Now, however, these costs have escalated to the point that we have to decide if we can afford having the same sort of item, or if we just want to drop the idea. There are a number of possibilities: (1) drop the idea, (2) continue with the same sort of thing and raise dues to cover added costs (it will probably be necessary to raise dues anyhow to cover added costs of printing and postage), (3) come up with a less expensive medal/token that we can afford. If you have any comments or ideas on this, please let me know. Incidentally, the new cost structure is the reason the *LEDGER* literary awards program has not gotten off the ground. These matters will be part of the discussions to be held at our November meeting. - DHF

= IDAHO BICENTENNIAL MEDAL =

A beautiful medal, struck in high relief by Medallic Art Company, is available through member Kendall Ballard, Route 1, Rexburg, ID 83440. On one side, the medal is worded UPPER SNAKE RIVER VALLEY / HISTORICAL SOCIETY and shows seven symbols including a train, a covered wagon, a tepee, a dam, etc. The other side has an outline map showing a number of counties in Idaho, along with the wording COUNTIES OF IDAHO SALUTE THE BICENTENNIAL and the usual dates 1776-1976.

The supply of medals survived the recent flood in that area, and the piece Kendall sent to me still has some mud clinging to it! Only 250 pieces were struck in bronze and 150 in silver; these are available for $6.00 and $17.50, respectively. Take my word for it, this is a handsome medal, worthy of your consideration if you collect Idaho material. - DHF
